

Mark Statute of SLG Prüf- und Zertifizierungs GmbH

Edition: 10/2009

1. General

This mark statute defines the rights of users of SLG test and certification marks. The relevant test and certification marks are represented in paragraphs 5 and 6 of this mark statute.

2. Proprietor of marks

All SLG marks as represented in paragraphs 5. "Marks for products" and 6. "Marks for QM / QA systems" hereunder are property of SLG Prüf- und Zertifizierungs GmbH (hereinafter referred to as "SLG"), headquartered in 09232 Hartmannsdorf, Germany.

3. User of marks

The user of the mark is the certificate holder as stated on the certificate issued by SLG.

4. Entitlement to use a mark

1. On receipt of a valid certificate issued by SLG the certificate holder acquires a non-exclusive unassignable right of use restricted by time and place to use the SLG marks indicated on the certificate.
2. The entitlement to use the mark is limited to the data stated on the certificate (amongst others, scope, range of services and products, location, validity). Entitlement to use the mark is only granted for the validity period of the certificate.
3. SLG marks shall not be used or modified improperly or as not intended without the express written approval by SLG. The use of single details of SLG marks by the mark user shall also require SLG's prior written consent.
4. Violation of SLG's rights on the SLG marks as well as misuse of certificates or marks may result in denial of both the certificate and the entitlement to use the corresponding SLG marks.
5. Should the certificate holder become aware of any misuse of SLG marks and/or the awarded certificate, he shall be obliged to inform SLG without delay.

5. Marks for products

SLG – GS mark, large
(for marks of 20 mm in height and higher)

SLG – GS mark, small
(for marks of less than 20 mm in height)

SLG – BAUART mark (type-tested)

SLG – EMC mark

SLG – CE mark of the Notified Body

SLG – Mark “Tested for harmful substances”

SLG – Mark “Tested for child safety”

SLG – Mark “Tested by SLG”
documents the performance of product tests

SLG – Mark “Certified by SLG”
documents a comprehensive conformity assessment taking into account relevant directives and standards, and if required, further product testing and includes factory inspection and surveillance

SLG – Quality mark (example)
documents test results for specific product properties obtained by tests according to standards

6. Marks for QM / QA systems (examples)

These marks for QM / QA systems document that the certificate holder acts in accordance with the stated systems and can prove the possession of a valid certification by SLG. The marks may be used in documents of business correspondence and for advertising purposes, but on no account for product labelling (e.g. as a statement for the product's quality). (Exception: area regulated by law, e.g. SLG – CE mark).

SLG – DIN EN ISO 9001

SLG – DIN EN ISO 13485
