

SLG Prüf- und
Zertifizierungs GmbH

SLG tested, Tested Toy, Tested for harmful substances

Strengthen your customers' trust
in your products.

At a glance

Use our marks "Tested Toy", "SLG tested" and "Tested for harmful substances" to highlight your products and strengthen your customers' trust.

"Tested Toy" confirms that your toy complies with the EU Toy Safety Directive.

"Tested for harmful substances" shows the compliance of your product with all relevant legal limit values as well as further consumer protection limits for harmful substances.

"SLG tested" is awarded to products that fulfill a protective function for children or states that, especially for children, no risk arises from your product.

Our test marks are based on SLG test plans which take into account all relevant current legal requirements. If all tests are passed you receive a certificate and are entitled to use our test mark for the validity period of the certificate.

Tested Toy

For parents only the best is good enough for their children. Use our mark to show that your toy complies with the legal requirements.

Test base:
 > SLG test plans based on the EU Toy Safety Directive and harmonized standards, e.g. standard series EN 71

▶ Toys for which we provide our mark

- toys with soft filling
- writing, painting and modelling toys
- costumes and toys worn by a child in play
- toys which a child can enter
- educational toys
- mobility toys
- activity toys
- entertainment toys
- water toys
- toys with electric drive (max. 24V rated voltage)
- model toys, functional toys

Tested for harmful substances

Show your customers that for you consumer protection does not end with the compliance with legal requirements.

Test base:
 > SLG test plans based on legal requirements such as REACH, RoHS, LFGB, VerpackV as well as consumer protection limits for other critical parameters such as heavy metals, PAH, phthalates, azodyes, formaldehyde and organotin compounds

▶ Product groups for which we provide our mark

- leisure and camping items
- sport and gymnastics items
- home textiles and decorative items
- household items and kitchen utensils
- consumer goods with food contact
- electric and lighting products
- garden products
- packaging

SLG tested

Children should grow up in a safe living environment. We award our test mark to products which protect children from harm and to children's items which comply with the relevant safety requirements.

Test base:
 > SLG test plans based on European standards

▶ Children's furniture, e. g.

- high chairs
- children's beds and folding cots
- baby and toddler safety gates

▶ Items for babies and toddlers, e. g.

- soother saver clips
- children's table sets (beakers and cups, plates, cutlery)
- feeding bottles and trainer mugs

▶ Child safety items, e. g.

- protective locking devices for cupboards and drawers
- oven door stops and hob guards
- protective locking devices for windows
- door catches
